R-Technology is a registered trademark of Rallycar.
One of R-Technology's goals will be to provide Suzuki racing vehicle users with high quality customer service. You can be sure that spare parts will be available anytime and anywhere you need them.
Other services will be offered jointly, such as rebuilding or overhauling engines, gearboxes or shock absorbers; technical support on site or remotely; ideal configuration for different rallies, etc. Likewise, R-Technology can also offer its own engineers and experienced mechanics for any rally. R-Technology will provide the highest level of service to its customers.
